Profile Summary:

Motivated Computer Science graduate with a solid foundation in software development and proficiency in Python programming. Experienced in core Python concepts, object-oriented programming, and basic database management. Demonstrated ability to develop efficient and scalable applications through academic and personal projects. Strong problem-solving skills and eager to contribute to a dynamic development team while continuing to grow professionally in software engineering.

Technical Skills:

- Languages: Python (Core concepts, OOP, Exception Handling)
- Libraries: NumPy, Pandas
- Data Handling: CSV, JSON file processing, Excel, Google Sheets
- Databases: SQLite, MySQL (basic)

Projects:

Project 1: Computer Shop Management System

Tech Stack/ Tools: C#.NET (Backend), Visual Studio 2015 (Frontend), Microsoft SQL Server (Database)

Description: Developed a Computer Shop Management System aimed at streamlining and digitalizing the student admission and record management process.

- Designed and implemented features to manage key records including student registration, academic results, and fee details.
- Enabled efficient data operations such as insertion, deletion, and updates of student information through an intuitive Windows Forms interface.
- Improved accuracy and reduced manual workload by automating routine administrative tasks.
- Integrated functionality for quick retrieval and printing of updated records.
- Strengthened skills in database connectivity, Windows Forms development, and back-end logic implementation using C#.NET.

Education:

BSc. in Computer Science - Shivaji University, Kolhapur	2023	86.00%
Higher Secondary Certificate (HSC) - Maharashtra State Board	2022	67.67%
Secondary School Certificate (SSC) - Maharashtra State Board	2020	89.20%

Soft Skills:

- Strong problem-solving ability
- Good communication skills
- Team player with collaboration mindset
- Quick learner and adaptable
